To help identify the language that a person speaks, please use the chart below. The name of each language is written in both English and in the language script. Please show this chart to anybody you encounter who does not speak English. **This might help them to indicate the language(s) they speak so the appropriate interpretation services can be requested. If they are experiencing abuse, the IL DV Hotline ([877-863-6338](tel:877-863-6338))** has interpretation services. Call a local agency with bilingual staff (see other side for info)
